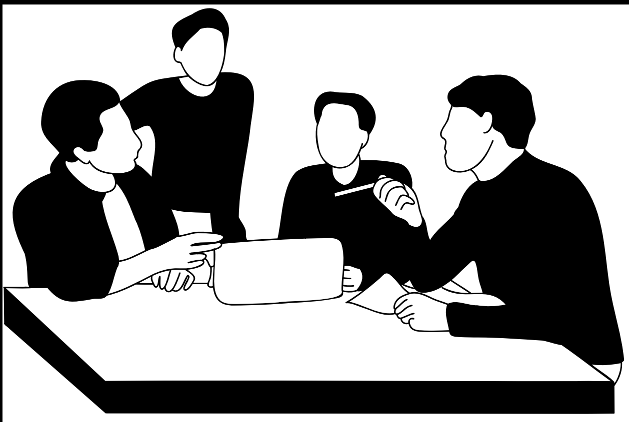
REIGNITING VENTURE CAPITAL IN THE PHILIPPINES
BRIDGING THE FUNDING GAP

ACADEMIC FRAMEWORK FOR DOMESTIC FUNDING ACQUISITION

CHAPTER 1: THE BURNING PROBLEM



PROBLEM STATEMENT: The Philippine startup ecosystem is capital drought. Domestic startups secure less than 5% of total Venture Capital funding in ASEAN, stifling domestic Innovation and scaling potential.

CHAPTER 2: EXISTING SOLUTIONS

BANK LOANS

GOVERNMENT GRANTS

ANGEL INVESTORS

CURRENT STRATEGIES ARE FRAGMENTED. Bank loans require excessive collateral. Grants are limited. Angel networks are localized

CHAPTER 3: THE INTEGRATED PLAN

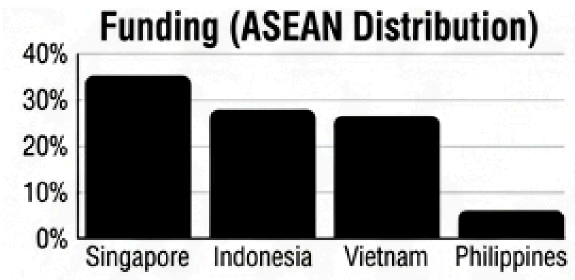
Regulatory Reforms
(Streamline SEC forms)

Co-Investment Models
(Establish mutual funds)

Institutional Access
(Unlock pension fund capital)

Ecosystem Scalability
(Support tech & fintech)

CHAPTER 4: IMPLEMENTATION



Co-investment pilots projected to increase domestic participation up to 45% in 1 year

CHAPTER 5: IMPACT

FINAL IMPACT. Creating a self-sustaining Venture Capital ecosystem that transforms the Philippines into a major competitive startup hub, ensuring innovation and good ideas stay domestic.

A replicable model for long-term domestic capital formation
